Firmware Engineers of Northeast Ohio

LOOKING TO THE EMBEDDED FUTURE IN IOT

REGISTER NOW: WEDNESDAY, OCTOBER 12TH FROM 4:30-6:30 PM

Please join us for a FENEO networking and panel discussion event, "Looking to the Embedded Future in IoT." As mass adoption of connected devices continues to increase and change every aspect of our daily lives, what does the future hold for firmware and embedded systems? How does firmware and embedded systems impact the future of IoT and IIoT?

During this **open meeting for all engineering professionals** in the technology space, thought leaders will seek to answer several of these questions with educational and thought-provoking programming. We look forward to seeing you.

WHEN

October 12, 2022 from 4:30-6:30 pm

WHERE

Corporate College East - Education and Event Center
4400 Richmond Rd, Warrensville Heights, OH 44128

Parking is plentiful. Heavy appetizers, beer, wine and soft drinks will be served. Cash bar will be available.

USA Firmware President and Founder Bob Scaccia will kick things off with a keynote address, followed by a moderated panel discussion with industry leaders, to be announced soon.

Cost is $15* to attend and includes one drink per person.

*Eventbrite will charge an additional $2.55 processing fee for each ticket.
