**Choice of:** Prime Rib (8oz); Oven Baked Scrod;

Blackened Chicken Pasta; Tuscan Vegetarian Pasta

The prime rib and scrod include a Galaxy House Salad, Roasted Redskin Potatoes and Sautéed Seasonal Vegetables

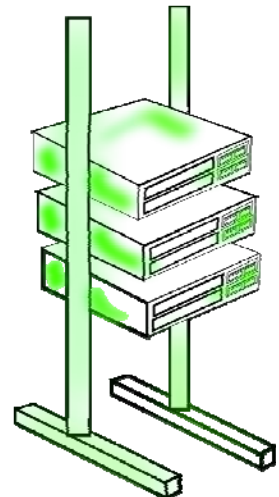

**Program: 7:00 pm**

**Cost: \$20 ea (member and 1 guest)**  
**\$10 students**

John Mertic, IEEE-A/C's guest speaker for the section's June meeting, has followed a career that many Computer Science majors take – from writing code and architecting systems to helping define business strategy and direction. While it may not make much sense on the surface why this path

exists, in this talk John will walk us through his career and share with us what he has learned along the way to reach his current position. John's intention is to give everyone a sense of why a Computer Science education can set students up for a strong career path.

**Contact Rick Buchanan for reservations by Friday, June 12 at (330) 497-8250 or email to [r.buchanan@ieee.org](mailto:r.buchanan@ieee.org). Please include your meal choice when making your reservation.**
